Education

•Bachelor of Technology in Computer Science and Biosciences *Aug 2023 - present*
Indraprastha Institute of Information Technology, Delhi CGPA: 7.33

•Senior Secondary Education (Class XII), CBSE *2021 - 2022*
Vishal Bharti Public School, Paschim Vihar Percentage: 89.2

•Senior Secondary Education (Class X), CBSE *2019 - 2020*
Vishal Bharti Public School, Paschim Vihar Percentage: 89.2

Personal Projects

•Angry Birds Game Clone *[GitHub]* *Sep 2024 - Nov 2024*
LibGDX, Box2D, Java 2 members

- Built a 2D game featuring physics-based slingshot mechanics, realistic collisions, and dynamic object interactions
- Multiple levels crafted with a tile-based editor, with seamless game state saving and loading through serialization

•RISC-V Assembler and Simulator *[GitHub]* *Feb 2024 - Apr 2024*
Python 4 members

- Built a assembler and simulator for RV32I (RISC-V), supporting all major instruction formats (R, I, S, B, U, J).
- Added error handling, test automation, and extended support for custom instructions (mul, halt, rst, rvrs).
- Simulated execution with real-time register and memory state tracking for accurate ISA emulation.

•Interactive Chess Platform *[Github]* *Dec 2025 - Jan 2026*
React, C++, HTML, CSS

- Built a Chess Web App, implementing custom game mechanics (move validation, castling, checkmate detection)
- Developed a custom AI engine for the application utilizing Minimax with Alpha-Beta pruning and Piece-Square Tables to optimize decision complexity and strategic play.

•NowOnCampus - College Events Management *[GitHub]* *May 2025 - June 2025*
HTML, CSS, JavaScript, Express.js, Node.js, SQL, MySQL

- Built a full-stack web app for managing college events with separate roles for admins and students.
- Enabled admins to create/edit/delete events, manage student accounts, and assign other admins.
- Allowed students to register for events and view personalized event calendars.

Experience

•Grove Growth *Jan 2026 - present*
Web Developer Intern

- Building responsive UI components, onboarding flows, dashboards and role-based interfaces for a multi-user ecosystem.
- Developing a scalable, gamified web platform using React/Next.js to drive student engagement and brand activations

Skills and Interests

Programming Languages: C, C++, Python, JavaScript
Frameworks/Tools: Swing, JavaFX, React.js, Node.js, Git, GitHub, VS Code, IntelliJ, VIM
Game Development: LibGDX, Box2D, Unreal Engine, Blender
Web Development: HTML, CSS, MySQL, SQL
Relevent Coursework: Machine Learning, Data Structures and Algorithms, Multivariate Calculus, Linear Algebra, Probability and Statistics, Operating Systems, Computer Networks, Digital Circuits, Computer Organisations, Database Management Systems, Object-Oriented Programming,
Areas of Interest: Design and Analysis of Algorithms, Mathematics, Low Level Internals, Machine Learning
Soft Skills: Problem Solving, Self-learning, Presentation, Adaptability

Certifications

•Intro to Machine Learning [link] *Aug, 2025*

•Postman API Fundamentals [link] *July, 2025*

•Game Development with Unreal Engine [link] *July, 2025*
